

Security measures in place

Webshield takes the following Measures to prevent unauthorised access to customer Information:

- **Accounting:** Access to customer information is password protected.
 - Credit card details, once entered, are encrypted to prevent anyone from viewing these details.
- **Email:** Access to email accounts is password protected to prevent unauthorized access to your email. Email passwords are encrypted so that even staff members do not have access.
- **VOIP:** Access to the [VOIP Phone portal](#) is password protected. This prevents unauthorised access to phone controls and call logs. Contact our support team if you have misplaced your password.
- **Hosting:** [Website hosting control panel](#) login also requires password access. Contact our support team if you have misplaced your password.

With all Webshield Internet systems, passwords can be reset by contacting staff either by the provided email or phone number during business hours
